

REMKO TX 2500, Heating capacity of 2.2 kW

REMKO TX

Fast, clean heat from the power outlet, can be used universally in all rooms

Ideal for all rooms that should be heated quickly and without problems. Modern electric heaters are robust, safe, and reliable. Power losses do not occur since the entire current is converted into heat.

Electric heaters can be used in all rooms since no combustion air supply is necessary and no exhaust gases arise. Fast, clean heat is generated. Due to the low weight, the devices can be used flexibly and transport easily to changing places of use.
